

To whom it may concern;

I am writing to express my opinion regarding NAB's petition 04-160. In short, please reject this petition. As a long time listener of XM, I fully enjoy their product and the services it provides. To approve this would do nothing more than stifle a budding technology and remove something frequently used by XM's paying customers. They have no right to do so. Keep the consumer/taxpayer in mind, not rich lobbyist.

Thank you.

Sincerely,

William Simpson
